Gigantic RED EMPEROR

This famous Tulip is about the largest early flowering ever cultivated. The tremendous flower is carried on a strong stem, holding it firm and erect. The color is the most brilliant scarlet one can imagine, and of such an intensity that the effect is almost blinding. When half open the flower shows a deep red base with a yellow edge. It blooms with the early Daffodils and grows 12 inches tall.

Daffodils - Narcissus

The loveliest flowers imaginable to awaken the garden to new life with their gay bright colors in the early days of spring. They do well in almost all soils and situations and are a permanent addition to the garden.

DAFFODILS, Giant Trumpet

The bold, Giant Trumpet Daffodils enjoy the greatest popularity. They make a superb picture when planted in groups by themselves or when combined with Blue Grape Hyacinths or other early-flowering bulbs.

HOLLAND'S FINEST GOLD MEDAL DARWIN TULIPS

More than any other flowers, Tulips symbolize the return of life to the seemingly dead earth. The spell of winter is suddenly and miraculously broken by these radiantly beautiful flowers, which make such glorious pictures to celebrate the beginning of a new garden season.

The varieties we list here are the very best and most stately Darwins now being produced, and we are certain you will be pleased with them. They ask for so little attention that every home should have a colorful display.
